

ABOUT

An HCL Technologies Company

PowerObjects is a leader in delivering Microsoft Business Applications solutions and the Dynamics 365 workloads through unparalleled offerings of service, support, education and add-ons. Our mission is to be the number one Microsoft Business Applications Provider in the world by delivering solutions that help organisations increase productivity, streamline business processes and build better relationships.

SERVICE

Our people take **SERVICE** to the next level, providing the expertise and capabilities needed for end-to-end implementations of Microsoft Business Applications, whether out of the box or with an industry approach. Additional PowerObjects offerings include Microsoft Cloud solutions, licensing, customised portals and much more.

SUPPORT

We offer proactive and responsive **SUPPORT** options tailored to each organisation's unique needs. From complex issues to minor additions and changes, and for Enterprise organisations and small businesses alike, our team of global support engineers is here to support our users throughout their entire Dynamics 365 and Microsoft Business Applications journey.

EDUCATION

We promote **EDUCATION** as a means to ensuring organisations get the most out of their Dynamics 365 investment. We offer training courses on everything from user basics to advanced topics, as well as change management taught by certified coaches who understand both the process and the people sides of education.

ADD-ONS

We are always improving and adding to our suite of CRM **ADD-ONS** for Dynamics 365 Customer Engagement, also known as the PowerPack suite. These include tools for sales, marketing, productivity and more. We've also developed several Dynamics 365 accelerators, as well as Power8CRM, a D365 companion app for Windows 8 tablets.
